RE: Financial Report

As of May 31, 2025, Basin Transit expenses were \$303,268 (6%) below budget. Maintenance costs exceeded the budget primarily due to outsourcing certain services while recruitment for a B Mechanic was underway, as well as the completion of repairs related to the 2022 accident involving Bus 323.

Passenger Fares were \$70,834 (26%) higher than anticipated, primarily on fixed routes.

• Six (6) of the (7) buses ordered have been delivered. Two (2) were returned due to a barometric sensor error and a fire suppression system fault. The final Class E bus from A-Z is expected to be delivered following an approved pre-delivery inspection.

#### ACTIVITIES

- On June 17<sup>th</sup>, Basin Transit provided 686 free rides as a "Dump the Pump Day" initiative, funded by San Bernardino County Transportation Authority.
- 657 passengers received free fares on July 16<sup>th</sup> under a "National Rural Transit Day" program, with funding provided by San Bernardino County Transportation Authority.
- Each month, we choose a fun national day to celebrate and bring a little extra joy to the workplace. In June, we marked National Egg Day by giving employees half a dozen eggs to take home. In July, we fired up the grill for National Hot Dog Day and held a friendly potato salad contest. These simple celebrations are just one way we help boost morale and keep things positive and engaging for our team.

Suggested donations include new, unused items such as:

• Notebooks and binders.

• Erasers, rulers and glue.

• Backpacks and pencil boxes.

Members of Basin Transit's management team and volunteers from the Boys & Girls Club of the Hi-Desert will be on site throughout the day to welcome donors, collect items and express thanks to those helping make a difference.

## **Buses free for** K-12 students for another year

MORONGO BASIN -Basin Transit's free fare program for K-12 students will continue through June 2026, thanks to continued grant funding.

All students in kindergarten through 12th may ride any Basin Transit route at no cost, making it easier for young riders to get to school, extracurricular activities, jobs and community destinations.

To ride free, students simply need to present a valid student ID or government-issued ID when boarding the bus. No special pass or registration is required.

"We're proud to continue offering this fare-free option for students across the Morongo Basin," said Cheri Holsclaw, the general manager of Basin Transit.

"This program removes transportation barriers for students and encourages lifelong transit habits."

The free rides program not only supports families by reducing transportation costs but also helps students develop independence and familiarity with public transportation, according to Holsclaw.

To that end, the Meer will be allowed to temporarily adjust his work schedule as deemed appropriate to accomplish Basin Transit's business.

### Section 9. <u>Indemnification</u>.

Basin Transit shall defend, hold harmless, and indemnify Meer against any tort, professional liability claim or demand or other legal action, whether groundless or otherwise, arising out of this Agreement, or any alleged act or omission occurring in the course and scope of performance of Meer's duties in accordance with the provisions of California Government Code Section 825.

## **INSTRUCTION TO BIDDERS**

**FORM OF PROPOSAL:** The proposal shall be made on the bidding schedule ("Proposal") herein. The proposal shall be enclosed in a sealed envelope bearing the name of the bidder and the name of the project as described under Section "A".

**DELIVERY OF PROPOSALS:** The proposal shall be delivered by the time and to the place stipulated in the Notice Inviting Sealed Bids. It is the bidder's sole responsibility to see that his proposal is received in proper time. Any proposal received after the scheduled closing time for receipt of proposals may be returned to the bidder unopened unless an extension has been granted by the Basin Transit. Bidders or their authorized agents are invited to be present.

**MODIFICATIONS AND ALTERNATIVE PROPOSALS:** Unauthorized conditions, limitations or provisos attached to a proposal will render it informal and may be cause for rejection. The complete proposal forms shall be without inter-lineations, alterations or erasures, unless each such correction is suitably authenticated by affixing in the margin immediately opposite the correction the surname or surnames of the person or persons signing the bid. No oral, telegraphic or telephonic proposals or modifications will be considered.

**WITHDRAWAL OF PROPOSAL:** The proposal may be withdrawn upon request by the bidder without prejudice to himself prior to, but not after the time fixed for opening of bids, provided that the request is in writing, has been executed by the bidder or his duly authorized representative, and is filed with the General Manager. No proposal may be withdrawn during the period of sixty (60) calendar days after the opening of proposals.

**BIDDER'S SECURITY:** Each bid shall be accompanied by a certified or cashier's check payable to the Basin Transit or a satisfactory bid bond in favor of the Basin Transit executed by the bidder as principal and a satisfactory surety company as surety, in an amount not less than ten percent (10%) of the amount named in the bid. The check or bid bond shall be given as a guarantee that the bidder shall execute the contract if it is awarded to him in conformity with the contract documents and shall provide the evidence of insurance and furnish the necessary bonds as specified in the contract documents, within fifteen (15) calendar days after written notice of the award. In case of the bidder's refusal or failure to do so, the check or bond, as the case may be, shall be forfeited to the Basin Transit. No bidder's bond will be accepted unless it conforms substantially to Section "D".

**APPROXIMATE ESTIMATE:** The quantities shown in the proposal form, and in the estimate included in the Special Provisions, shall be considered as approximate only, being listed therein for the purpose of serving as a general indication of the amount of work or materials to be performed or furnished, and as a basis for the comparison of bids; and the Basin Transit does not guarantee nor agree, either expressly or by implication, that the actual amount required will correspond therewith, but reserves the right to increase or decrease the amount of any item or portion of work or material to be performed or furnished, or to omit any such item or portion, in accordance with the Special Provisions or Standard Specifications, under which the work is to be constructed, without any way invalidating the contract, should such increase, decrease or omission be deemed necessary or expedient.

**ADDENDA:** The General Manager may, from time to time, issue addenda to the contract documents during the period of advertising for bids, for the following purposes: (a) revising Prevailing Wage Scales, or (b) clarifying, correcting or otherwise amending quantities of work under Special Provisions, plans or bid proposal.

Securers of contract documents shall be notified of, and furnished with, copies of such addenda, either by certified mail or personal delivery, during the period of advertising at no additional cost.

**DISCREPANCIES IN PROPOSALS:** The bidder shall set forth each item of work, in clearly legible figures, a unit or line item bid for the item in the respective spaces provided for this purpose.

In case of discrepancy between the unit price and the total set forth for the item, the unit price shall prevail, provided, however, if the amount set forth as a unit price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or in the case where the unit price is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

(1) As to lump sum items, the amount set forth in the "Total" column shall be the unit price.

(2) As to unit price items, the amount set forth in the "Total" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price.

In case of discrepancy between words and figures, the words shall prevail.

**COMPETENCY OF BIDDERS:** In selecting the lowest responsible bidder, consideration will be given not only to the financial standing, but also to the general competency of the bidder for the performance of the work covered by the proposal. To this end each proposal shall be supported by a statement of the bidder's experience on the form entitled "Information Required of Bidder" bound herein. No agreement for the work will be executed with a contractor who is not licensed in accordance with the laws of the State of California under applicable provisions of the Business and Professions Code. The licensing requirements for contractors shall apply also to subcontractors.

**BIDDER'S EXAMINATION OF SITE AND CONTRACT DOCUMENTS:** Bidders must satisfy themselves by personal examination of the location of the proposed work and by such other means as they may prefer as to the proposal, plans, specifications, contract form and actual conditions and requirements of the work, and shall not at any time after submission of the bid, dispute, complain, or asset that there was any misunderstanding in regard to the conditions to be encountered, the character, quality, and quantities of work to be performed and materials to be furnished, and the requirements of the proposal, plans, specifications, and the contract form. The submission of a proposal shall be considered conclusive evidence that the bidder has made such examination.

**DISQUALIFICATION OF BIDDERS:** No person, firm, or corporation shall be allowed to make, file or be interested in more than one bid for the same work, unless alternate bids are specifically called for. A person, firm or corporation that has submitted a subproposal to a bidder, or that has quoted prices of materials to a bidder is not hereby disqualified from submitting a subproposal or quoting prices to other bidders or making a prime proposal. If there is a reason to believe that collusion exists among the bidders, all bids will be rejected.

**RETURN OF BID SECURITY:** The successful bidder's proposal guarantee shall be held until the contract is executed. Bid security shall be returned to unsuccessful bidders within twenty (20) calendar days after the successful bidder has signed the contract.

**AWARD OF CONTRACT:** The Basin Transit reserves the right to reject any or all bids or any parts thereof or to waive any irregularities or informalities in any bid or in the bidding. The award of the contract, if made by the Basin Transit, will be to the lowest responsible and qualified bidder. The award, if made, will be within sixty (60) calendar days after the opening of the proposals; provided that the award may be made after said period if the successful bidder has not given the Basin Transit written notice of the withdrawal of his bid.

**ALTERNATES:** In accordance with Public Contract Code Section 20103.8(b), the lowest bid shall be the lowest total of the bid price on the base bid plus any alternative bid item(s), and also providing that pursuant to that Section, the City reserves the right to deduct from the contract any alternative bid item(s).

**LISTING SUBCONTRACTORS:** Each bidder shall submit a list of the proposed subcontractors on this project, as required by the Subletting and Subcontracting Fair Practices Act (Public Contract Code Sections 4100, <u>et seq.</u>). Forms for this purpose are furnished with the contract documents.

**EXECUTION OF AGREEMENT:** The bidder to whom award is made shall execute a written contract with the Basin Transit in the form included in these contract documents and shall secure all insurance and bonds as herein provided within fifteen (15) calendar days from the date of mailing of written notice of the award. Failure or refusal to enter into the agreement or to conform to any of the stipulated requirements shall be just cause for the annulment of the award and forfeiture of the bidder's security. In the event the bidder to whom an award is made fails or refuses to execute the Agreement within said time, the Basin Transit may declare the bidder's security forfeited, and it may award the work to the next lowest bidder, or may call for new bids.

If the successful bidder refuses or fails to execute the contract, the Basin Transit may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder refuses to execute the contract, the Basin Transit may award the contract to the third lowest responsible bidder to execute the contract; such bidder's securities shall be likewise forfeited to the Basin Transit.

**INSURANCE AND BONDS:** The Contractor shall not begin work under the Agreement until it has given the Basin Transit evidence of comprehensive public liability insurance and Workers' Compensation Insurance coverage as provided in the General Provisions and Sections "G" and "H" and provided Faithful Performance and Labor and Material bonds as described in General Provisions and Sections "E" and "F".

**TELEPHONES:** Bidders are hereby notified that Basin Transit will not provide telephones for their use at the time of receipt of bids.

**MATERIAL SUPPLIER:** If the firm who is signatory on the contract is supplying materials only, a payment bond need not be furnished.

**INTERPRETATION OF PLANS AND DOCUMENTS:** If any person contemplating submitting a bid for the proposed contract is in doubt as to the true meaning of any part of the drawings, specifications or other contract documents, or finds discrepancies in or omissions from the drawings and specifications, he may submit to the General Manager a written request for an interpretation or correction. The person submitting the request will be responsible for its prompt delivery. Any interpretation or correction of the contract document will be made only by an Addendum duly issued, and a copy of such Addendum will be mailed or delivered to each person receiving a set of the contract documents. No oral interpretation of any provision in the contract documents shall be binding.

**SALES AND/OR USE TAXES:** Except as may be otherwise specifically provided herein, all sales and/or use taxes assessed by federal, state or local authorities on materials used or furnished by the Contractor in performing the work hereunder shall be paid by the Contractor.

The Contractor shall rebuild, repair, restore and make good all injuries or damages to any portion of the work occasioned by any cause before its completion and acceptance and shall bear the expense thereof, except for such injuries or damages arising from the sole negligence of willful misconduct of the Basin Transit, its officers, agents or employees. In the case of suspension of work from any cause whatever, the Contractor shall be responsible for all materials and the protection of work already completed and shall properly store and protect them if necessary and shall provide suitable drainage and erect temporary structures where necessary.

### II-M. MAINTENANCE AND GUARANTEE -

(1) The Contractor hereby guarantees that the entire work constructed by him under the contract will meet fully all requirements as to quality of workmanship and materials. The Contractor hereby agrees to make at his own expense any repairs or replacements made necessary by defects in materials or workmanship that become evident within one year after the date of the final payment, and to restore to full compliance with the requirements of these specifications including any test requirements set forth herein for any part of the constructed hereunder, which during said one-year period is found to be deficient with respect to any provisions of the specifications. The Contractor shall make all repairs and replacements promptly upon receipt of written orders for the same from the General Manager.

(2) The guarantees and agreements set forth in Subsection 1 shall be secured by a surety bond which shall be delivered by the Contractor to the Basin Transit before the Notice of Completion and acceptance of the work, by the General Manager, as provided in Subsection 6-8 of the Standard Specifications. Said bond shall be in the form approved by the Basin Transit and executed by a surety company or companies satisfactory to the Basin Transit, in the amount of 100% of the contract. Said bond shall remain in force for a period of one year after the date of Notice of Completion and acceptance. Alternatively, the Contractor may provide for the Faithful Performance Bond furnished under the contract to remain in force

#### III. PROSECUTION AND PROGRESS OF THE WORK

**III-A.** <u>WORK SCHEDULE</u> - As soon as notified of the award of the contract, the Contractor shall prepare and submit to the General Manager a work schedule for accomplishing the work. Said schedule must show the dates of the expected start and completion of the various items of the contract work. During a scheduling conference between the Contractor and the General Manager, the work schedule will be discussed and modified, if necessary, by mutual agreement. Should it become necessary for the Basin Transit to delay temporarily the work schedule agreed upon during the scheduling conference, every effort will be made to permit a new work schedule at the time most convenient to the Contractor, thus permitting the project to proceed with the shortest intramural movement of the equipment.

**III-B.** <u>SUBLETTING AND ASSIGNMENT</u> - The Contractor shall give his personal attention to the fulfillment of the contract and shall keep the work under his control. The Contractor shall not assign, transfer nor sublet any part of the work without the written consent of the Basin Transit by the General Manager and of the surety of the Contractor's bond, and such consent of Surety, together with a copy of the subcontract, shall be filed with the General Manager. No assignment, transfer or subletting, even though consented to, shall relieve the Contractor of his liabilities under the contract. Subcontractors shall not be recognized as such, and all persons engaged in the project will be considered as employees of the Contractor, their work being subject to the provisions of the contract and the specifications. Should any subcontractor shall be removed immediately from the project upon request by the General Manager, shall not again be employed on the work, and the Contractor shall be held liable for the deficient work.

The Contractor shall submit to the Basin Transit a list with the names, addresses and telephone numbers of all subcontractors who will work under him.

**III-C.** <u>CHARACTER OF WORKMAN</u> - The Contractor shall employ none but competent foremen, laborers and mechanics. Any overseer, superintendent, laborer or other person employed on the work by the Contractor who is intemperate, incompetent, troublesome or otherwise undesirable, or who fails or refuses to perform the work in the manner specified herein, shall be discharged immediately and such person shall not again be employed on the work.

**III-D.** <u>AGENTS OR FOREMAN</u> - In the absence of the Contractor from the site of the project, even if such is only of a temporary duration, he must provide and leave at the site a competent and reliable English-speaking agent or foreman in charge. All notices, communications, orders or instructions given, sent to, or served upon, such agent or foreman by the General Manager shall be considered as having been served upon the Contractor.

**III-E.** <u>**TEMPORARY STOPPAGE OF CONSTRUCTION ACTIVITIES**</u> - The General Manager shall have the authority to suspend the contract work, wholly or in part, for such a period of time as he may deem necessary, due to unsuitable weather, or to such other conditions as he considered unfavorable for the proper prosecution of the work, or for such time as he may deem necessary due to failure on the part of the Contractor or his workmen to carry out orders or to perform any of the requirements of the contract. The Contractor shall immediately comply with such an order from the General Manager and shall not resume operations until so ordered in writing.</u>

**III-F.** <u>TIME OF COMPLETION AND LIQUIDATED DAMAGES</u> - If all the contract work is not completed in all parts and requirements within the time specified in the contract documents, the Basin Transit shall have the right to grant or deny an extension of time for completion, as may seem best to serve the interest of the Basin Transit. The Contractor shall not be assessed with liquidated damages during any delay in the completion of the work caused by acts of God or of the Public Enemy, acts of the State, fire not due to acts of contractors, of subcontractors, floods, epidemics, quarantine, restrictions, strikes, freight embargo or unusually severe weather, or delays of subcontractors due to such causes, provided that the Contractor shall, within ten (10) days from the beginning of such delay, notify the Basin Transit, in writing, of the cause of the delay. The Basin Transit will ascertain the facts and the extent of the delay, and the finding thereon shall be final and conclusive. If the Basin Transit deems it appropriate to assess the contractor liquidated damages, such damages shall be of a minimum amount of \$250.00 per day.

**III-G. SUSPENSION OF CONTRACT** - If at any time, in the opinion of the General Manager, the Contractor fails to supply an adequate working force, manufactured articles, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified and intended in any by the terms of the contract, notice thereof in writing will be served upon him, and should he neglect or refuse to provide means for a satisfactory compliance with the contract within the time specified in said notice and as directed by the General Manager, the General Manager shall have the power to suspend the operation of the contract and discontinue all work or any part thereof, subject to review by the Basin Transit Board. Thereupon the Contractor shall discontinue such work, or such part thereof as the Basin Transit may designate, and the Basin Transit may thereupon, by contract or otherwise, as it may determine, complete the work or such part thereof, and charge the entire expense of so completing the work or any part there of to the Contractor, and for such completion the Basin Transit itself or its Contractors may take possession of and use, or cause to be used in the completion of the work, or any part thereof, any such materials, implements and tools of every description as may be found at the place of such work. All expense charged under this paragraph shall be deducted and paid for by the Basin Transit out of any moneys then due or to become due the Contractor under the contract, or any part thereof, and in such accounting the Basin Transit shall not be held to obtain the lowest figure for the work for completing the contract, or any part thereof, or for ensuring its proper completion, but all sums paid therefore shall be charged to the Contractor. In case the expenses so charged are less than sum which would have been payable under the contract, if the same had been completed by the Contractor, the Contractor shall be entitled to receive the difference, and in case such expense shall exceed the amount payable under the contract, then the Contractor shall pay the amount of the excess to the Basin Transit, upon completion of the work, without further demand being made therefore. In the determination of the question as to whether or not there has been any such noncompliance with the contract as to warrant the suspension or annulment thereof, the decision of the Basin Transit Board shall be binding on all parties to the contract.

#### **IV. MEASUREMENT AND PAYMENT**

**IV-A.** <u>MEASUREMENT AND PAYMENT</u> - Measure of the quantities of work and payments therefore shall be in accordance with Section 9 of the Standard Specifications. In accordance with Subsection 9.2 of the Standard Specifications, the monthly payment date shall be the last calendar day of each month. A measurement of work performed and a progress estimate of the value thereof based on the contract and of the monthly payment shall be prepared by the Contractor and submitted to the General Manager before the tenth day of the following month for verification and payment consideration.

### IV-B. FINAL INVOICE AND PAYMENT -

(1) Whenever in the opinion of the General Manager, the Contractor shall have completely performed the contract on his part, the General Manager shall notify the Basin Transit that the contract has been completed in its entirely. The Contractor shall then submit to the General Manager for approval, a written statement of the final quantities of contract items for inclusion in the final invoice. Upon receipt of such statement, the General Manager shall check the quantities included therein and shall authorize the Contractor to submit an invoice which in the General Manager's opinion shall be just and fair, covering the amount and value of the total amount of work done by the Contractor, less ten percent (10%) of the total work done. The General Manager shall then request that the Basin Transit accept the work and that the General Manager be authorized to file, on behalf of the Basin Transit in the office of the San Bernardino County Recorder, a Notice of Completion of the work herein agreed to be done by the Contractor.

(2) On the expiration of thirty-five (35) days after the date of recording the Notice of Completion, the Basin Transit shall pay to the Contractor the amount remaining after deducting from the amount of value stated in the invoice all prior payments to the Contractor and all amounts to be kept and retained under the provisions of the contract, and shall release the Faithful Performance Bond and Labor and Material

Bond.

(3) Substitution of Securities for Retention: In accordance with Public Contract Code Section 22300, the Contractor may substitute securities for retention moneys to be withheld to ensure performance under this contract. At the request and expense of the Contractor, securities equivalent to the amount withheld may be deposited with the Basin Transit, or with an approved state or federally chartered bank as the escrow agent, who shall then pay such moneys to the Contractor, and upon satisfactory completion of the contract, the securities shall be returned to the contractor. It is the Contractor's obligation to secure the services of a state or federally chartered bank to act as escrow agent. Securities eligible for investment include those listed in Government Code Section 16430 or bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit or any other security mutually agreed to by the Contractor and the Basin Transit. Contractor shall be the beneficial owner of any securities for retention moneys withheld and shall receive any interest earned by the securities.

**IV-C. EXTRA WORK** - Extra work, when ordered in writing by the General Manager and accepted by the Contractor, shall be paid for under written work order in accordance with the terms therein provided. Payment for extra work will be made at the unit price or lump sum previously agreed upon between the Contractor and the General Manager. All extra work shall be adjusted daily upon report sheets prepared by the General Manager, furnished by the Contractor, and signed by both parties, and said daily report shall be considered thereafter the true records of extra work done.

**IV-D.** <u>UNPAID CLAIMS</u> - If upon or before the completion of the work herein agreed to be performed or at any time prior to the expiration of the period within which claims of lien may be filed for record as prescribed by the Code of Civil Procedure of the State of California, any person or persons claiming to have performed any labor or furnished any materials, supplies or services towards the performance of completion of this contract or if they have agreed to do so, shall file with the Basin Transit a verified statement of such claim, or if any person shall bring against the Basin Transit or any of its agents any action to enforce such claim, the Basin Transit shall until the discharge thereof, withhold from the moneys that are under its control, as much as shall be sufficient to satisfy and discharge the amount in such notice or under such action claimed to be due, together with the cost thereof; provided, that if the Basin Transit shall in its discretion permit the Contractor to file such additional bond as is authorized by the Code of Civil Procedure in a penal sum equal to one and one-quarter times the amount of said claim, said money shall not thereafter be withheld on account of such claim.

**IV-E.** <u>ACCEPTANCE</u> - The parties agree that no certificate given shall be conclusive evidence of the faithful performance of the contract, either in whole or in part, and that no payment shall be construed to be in acceptance of any defective work or improper materials. Further, the certificate or final payment shall not terminate the Contractor's obligations under his warranty hereinabove. The Contractor agrees that payment of the amount due under the contract and the adjustments and payments due for any work done in accordance with any alterations of the same, shall release the Basin Transit, the Basin Transit Board and its officers and employees from any and all claims or liability on account of work performed under the contract or any alteration thereof. (Section 7100, Public Contract Code)

### V. CONTROL OF WORK

**V-A. AUTHORITY OF THE GENERAL MANAGER** - The General Manager shall decide any and all questions that may arise as to the quality and acceptability of materials furnished and work performed as to the manner of performance and rate of progress of the work, and any and all questions which may arise as to the interpretation of the plans and specifications. The General Manager shall likewise decide any and all questions as to the acceptable fulfillment of the contract on the part of the Contractor, and all questions as to claims and compensations. The decision of the General Manager shall be final, and he shall have relative authority to enforce and make effective such decisions and actions as the Contractor fails to carry out promptly.

V-B. <u>CONFORMITY WITH PLANS AND ALLOWABLE VARIATION</u> - Finished surfaces shall in all cases conform with the lines, grades, cross-sections and dimensions shown on the plans. Minor

deviations from approved plans, whenever required by the exigencies of construction, shall be determined in all cases by the General Manager and authorized in writing.

**V-C.** <u>**PROGRESS OF THE WORK</u></u> - The Contractor shall begin work on the date agreed upon following the scheduling conference mentioned in Paragraph III-A hereof, and shall diligently prosecute the same to completion before the expiration of the time limit appearing in the specifications.</u>** 

**V-D.** <u>SAMPLES</u> - The Contractor shall furnish all products and materials required to complete the work. All materials and products must be of the specified quality and fully equal to samples, when samples are required. Whenever required, the Contractor shall submit to the General Manager for test, and free of charge, samples of any one of the materials or products proposed to be used in the work. Said samples shall be delivered by the Contractor to the place within the Basin Transit designated by the General Manager. Rejected material must be immediately removed from the work by the Contractor and shall not again be brought back to the site.

**V-E.** <u>**TRADE NAMES AND ALTERNATIVES**</u> - For convenience in designation on the plans or in the specifications, certain equipment or articles or materials to be incorporated in the work may be designated under a trade name of manufacturer and his catalog information. The use of an alternative equipment or an article or equipment which is of equal quality and of the required characteristics for the purpose intended will be permitted, subject to the approval of the General Manager, in accordance with the following required by Section 3400 of the Public Contract Code of the State of California.

The burden of proof as to the comparative quality and suitability of alternative equipment or articles or materials shall be upon the Contractor, and he shall furnish, at his own expense, all information necessary or related thereto as required by the General Manager. The General Manager shall be the sole judge as to the comparative quality and suitability of alternative equipment or articles or materials and his decision shall be final. All requests for substitution shall be submitted seven (7) days in advance of bid opening to permit, if the request is approved, an addendum to be issued to all bidders.

**V-F.** <u>**PROTECTION OF WORK</u></u> - The Contractor shall continuously maintain adequate protection of all his work from damage, and the Basin Transit will not be held responsible for the care or protection of any material, equipment or parts of work, except as expressly provided for in the specifications.</u>** 

**V-G.** <u>CONFLICT OF TERMS</u> - The notice to bidders, proposal, plans, specifications and General Provisions are essential parts of the contract for a given project. These documents, together with the necessary bonds and bidder's guarantee, constitute the contract as defined herein, and a requirement included in one document shall be as binding as though included in all, as they are intended to be cooperative and to provide a description of the work to be done. Should there be any conflict or discrepancy between terms used, then the specifications shall govern over plans, and change orders and supplemental agreements shall govern over any other contract document.

**V-H. INTERPRETATION OF PLANS AND SPECIFICATIONS** - Should it appear that the work to be done, or any matter relative thereto, is not sufficiently detailed or explained on the plans or in the specifications, the Contractor shall request the General Manager for such further explanation as may be necessary, and shall conform to such explanation or interpretation as part of the contract, so far as may be consistent with the intent of the original specifications. In the event of doubt of questions relative to the true meaning of the specifications, reference shall be made to the Basin Transit Board, whose decision thereon shall be final.

**V-I.** <u>ALTERATIONS, INCREASES AND DECREASES OF WORK TO BE DONE</u> - The Basin Transit reserves the right to increase or decrease the quantity of any item or portion of the work described on the plans, the specifications or the proposal form or to omit portions of the work so described, as may be deemed necessary or expedient by the General Manager and the Contractor shall agree not to claim or bring suit for damages, whether for loss of profits or otherwise, on account of any decrease or omission of any kind of work to be done. By mutual consent of the parties signatory to the contract, alterations, modifications or deviations from the type of work may be described on the plans, specifications or on the

proposal form may be made without in any way making the contract void. The price to be paid by the Basin Transit to the Contractor for such altered or modified work shall be agreed upon in writing, endorsed upon the original contract and signed by the proper parties to said contract.

Whenever, during the progress of the work, such changes or modifications are deemed necessary by the General Manager and agreed upon, as aforesaid, said deviations shall be considered and treated as though originally contracted for, and shall be subject to all the terms, conditions and provisions of the original contract.

**V-J.** <u>EXTRA WORK</u> - New and unforeseen work will be classed as extra work only when said work is not covered and cannot be paid for under any of the various items or combination of items for which a bid price appears on the proposal form. The Contractor shall not do any extra work except upon written order from the General Manager. Compensation for such extra work shall be previously agreed upon in writing between the Contractor and the General Manager.

**V-K.** <u>LINES AND GRADES</u> - Except when, as per orders from the General Manager, minor changes in the work are to be made by the Contractor, all work shall, during its progress and upon completion, conform to the lines, grades and elevations shown on the plans. All distances and measurements are given thereon and will be made in a horizontal plane. Three (3) consecutive points shown on the same rate of slope must be used in common in order to detect any variation from a straight line, and in case any such discrepancy exists, it must be reported to the General Manager. Failure to make this report shall make the Contractor responsible for any error in the finished work.

#### V-L. PUBLIC UTILITIES -

(1) All of the existing utility facilities except those to be relocated as shown on the plans will remain in place and the contractor will be required to work around said facilities. In case it should be necessary to remove the property of a public utility or franchise, such owner will, upon proper application by the Contractor, be notified by the General Manager to move such property within a reasonable time, and the Contractor shall not interfere with said property until after the expiration of the time specified. The right is reserved to the owners of public utilities or franchises to enter upon the streets for the purpose of making repairs or changes in their property which may be necessary as a result of the work. Employees and agents of the Basin Transit shall likewise have the privilege of entering upon the street for the purpose of making any necessary repairs or replacements.

(2) The Contractor shall employ and use only qualified persons, as hereinafter defined, to work in proximity to Southern California Edison secondary, primary and transition facilities. The term "qualified person" shall mean one, who by reason of experience or instruction, is familiar with the operation to be formed and the hazards involved, as more specifically defined in Section 2700 of Title 8 of the California Administrative Code. The Contractor shall take such steps as are necessary to assure compliance by any subcontractors.

**V-N. PROCEDURE IN CASE OF DAMAGE TO PUBLIC PROPERTY** - Any portions of curb, gutter, sidewalk or any other Basin Transit improvement damaged by the Contractor during the course of construction shall be replaced by the Contractor at his own cost, free of charges to the Basin Transit. The cost of additional replacement of curb, gutter or sidewalk in excess of the estimated quantities shown in the proposal form and specifications, and found necessary during the process of construction, (but not due to damage resulting from carelessness on the part of the Contractor during his operation), shall be paid to the Contractor at the unit prices submitted in his bid.

V-O. AVOIDANCE OF DUST NUISANCE - During the process of breaking, excavating and removing

any material from the site of the project and until completion of the work, the Contractor shall take every precaution to avoid the nuisance of unnecessary dust by using any measures advocated by the General Manager.

**V-P.** <u>**REMOVAL OF DEFECTIVE OR UNAUTHORIZED WORK</u></u> - It is the intent of the specifications that only first-class work, materials and workmanship will be acceptable. All work which is defective in its construction or deficient in any of the requirements of the specifications shall be remedied, or removed and replaced by the Contractor in an acceptable manner, and no compensation will be allowed for such correction.** Any work done beyond the lines shown on the plans or established by the General Manager, or any extra work done without written authority will be considered as unauthorized and will not be paid for. Upon failure on the part of the Contractor to comply forthwith with any order of the General Manager made under the provisions of this paragraph, the General Manager shall have authority to cause defective work to be remedied or removed and replaced, and unauthorized work to be removed, and to deduct the costs thereof from any moneys due or to become due the Contractor. If the work is found to be in compliance with these specifications, the General Manager will furnish the Contractor with a certificate to that effect.</u>

**V-Q.** <u>SUPERVISION</u> - All manufactured products, materials and appliances used and installed and all details of the work shall at all times be subject to the supervision, test and approval of the General Manager or his authorized representatives. The General Manager or his authorized representatives shall have access to the work at all times during construction, and shall be furnished with every reasonable facility for securing full knowledge with regard to the progress, workmanship and character of the materials used or employed in the work.

Whenever the Contractor varies the period during which work is carried on each day, he shall give adequate notice to the General Manager so that proper inspection may be provided. Any work done in the absence of the General Manager or the General Manager's agent will be subject to rejection. The inspection of the work shall not relieve the Contractor of any of his obligations to fulfill the contract as prescribed. Defective work shall be made good, and unsuitable materials may be rejected, notwithstanding the fact that such defective work and unsuitable materials have previously been accepted or estimated for payment.

The Contractor shall prosecute work on any State highway or with any railroad right-of-way only in the presence of an inspector representing the State Division of Highways or the railroad company, and any work done in the absence of such inspectors will be subject to rejection. The Contractor shall make the appropriate notification according to the instructions given on the State Encroachment Permit or railroad permit for all inspections, and shall post all bonds and certificates required by the permit. The permit shall be acquired by the Contractor at the Contractor's expense. The Contractor shall pay for all testing and inspections required by a State Encroachment Permit or railroad permit.

**V-R.** <u>QUALITY OF MATERIAL</u> - Materials shall be new, and of specified kind and quality, and fully equal to samples when samples are required. When the quality or kind of material or articles shown required under the contract is not particularly specified, the Contractor shall estimate that the Basin Transit will require articles and materials representing the best of their class or kind or at least equal to the class or quality of similar articles or materials when specified. Materials shall be furnished in such quantities and kinds and at such times as to ensure uninterrupted progress for the work. They shall be stored properly and protected as required. The Contractor shall be entirely responsible for damage or loss by weather or any other cause.

**V-S.** <u>DEFECTIVE MATERIALS</u> - All materials not conforming to the requirements of these specifications shall be considered as defective, and all such materials shall be removed immediately from the site of the work unless otherwise permitted by the General Manager. Upon failure on the part of the Contractor to comply with any order by the General Manager made under the provisions of this article, the General Manager shall have the authority to remove and replace defective material and to deduct the cost of removal and replacement from any moneys due or to become due to the Contractor.

**V-T.** <u>SOUND AND VIBRATION CONTROL REQUIREMENTS</u> - The Contractor shall comply with all local sound control and noise level rules, regulations and ordinances. No internal combustion engine shall operate on the project without a muffler of the type recommended by the manufacturer. Should any muffler or other control device sustain damage, the Contractor shall promptly remove the equipment and shall not return said equipment to the job until the device is repaired or replaced. Said noise and vibration level requirements shall apply to all equipment on the job or related to the job, including, but not limited to truck, transit mixers or transit equipment that may or may not be owned by the Contractor.</u>

Further, the Contractor shall provide access to each residential or commercial establishment each evening.

**I. STREET CLOSURES:** No closure of any street shall be allowed unless prior written permission is obtained from the General Manager. Should the Contractor appear neglectful or negligent in furnishing warning and protection devices as outlined above, the General Manager may direct attention to the existence of a hazard and the necessity of additional or different measures which shall be furnished and installed by the Contractor at his own expense, free of any cost to the Basin Transit. Should the Contractor refuse or fail to act in a timely manner to correct a hazardous condition, the General Manager may direct Basin Transit forces to provide the necessary protective and warning devices as deemed appropriate by the General Manager.

The cost accrued by the Basin Transit in connection therewith will be deducted from the Contractor's contract payment. Any action or inaction on the part of the Basin Transit in directing attention to the inadequacy of warning and protective measures or in providing additional protective and warning devices shall not relieve the Contractor from responsibility for public safety or abrogate his obligation to furnish and pay for these devices.

The Contractor shall submit his work schedule and traffic control plans to the General Manager for approval at the pre-construction conference. This schedule shall allow residents, on the streets to be improved, ample "on street" parking within an 800-foot distance from their homes.

Contracts and subcontracts which are exempt from the equal opportunity clause are set forth in 41 CFR 60-1.5. (Generally only contracts or subcontracts or \$10,000.00 or under are exempt.)

Currently, Standard Form 100 (EEO-1) is the only report required by the Executive Orders or their implementing regulations.

Proposed prime contractors and subcontractors who have participated in a previous contract or subcontract subject to the Executive Orders and have not filed the required reports should note that 41 CFR 60-1.7(b)(1) prevents the award of contracts and subcontracts unless such contractor submits a report covering the delinquent period or such other period specified by the Federal Highway Administration or by the Director, Office of Federal Contract Compliance, U.S. Department of Labor.

This certification for the prime contractor must be submitted at bid time with the bid. Certification for subcontractors, if not submitted at bid time, can be submitted within seven days after bid opening.

RE: Shed Replacement

Staff requests authorization to proceed with replacing the existing old, deteriorating shed located in the City Yard in Twentynine Palms, which currently lacks air conditioning, with a new portable office unit. The proposed portable office will include upgraded electrical capacity, a mini-split HVAC system for efficient heating and cooling, and finished drywall for improved insulation and comfort.

The estimated cost for the new portable office unit is \$24,044+*tax* with vinyl flooring, with an additional \$24,700 needed to construct the concrete pad, complete necessary electrical work, and prepare the site.

This project would provide staff with a safer, more functional, and climatecontrolled workspace to better meet operational needs.

The City of Twentynine Palms has expressed its full support for this improvement, and we are prepared to move forward upon receiving authorization.
